

Zen Cart Implementation Guide

1. Open `tpl_bongo_checkout_form_default.php` located at:

ZENCART_ROOT / includes / templates / template_default / templates /
`tpl_bongo_checkout_form_default.php`

Edit line 17 and 18 and add your unique **PARTNER KEY** and **CHECKOUT URL**.

2. Upload the contents of the folder `add_these_files` to your ZenCart installation directory. This will **NOT** overwrite any files.

3. Backup `tpl_shopping_cart_default.php`, located at:

ZENCART_ROOT / includes / templates / template_default / templates /
`tpl_shopping_cart_default.php`

Upload `tpl_shopping_cart_default.php`.

3. Edit the following files.

(1) ZENCART_ROOT / includes / **filenames.php**

Insert the following at any point in the file:

```
define('FILENAME_BONGO_CHECKOUT_FORM', 'bongo_checkout_form');
```

(2) ZENCART_ROOT / includes / languages / **english.php**

Insert the following after “// javascript messages”

```
define('ENTRY_ADDRESS_MIN_LENGTH',5);  
define('ENTRY_ADDRESS1_ERROR', 'Your Address1 must contain a minimum of ' .  
ENTRY_ADDRESS_MIN_LENGTH . ' characters.');
```
