

BigCommerce Implementation

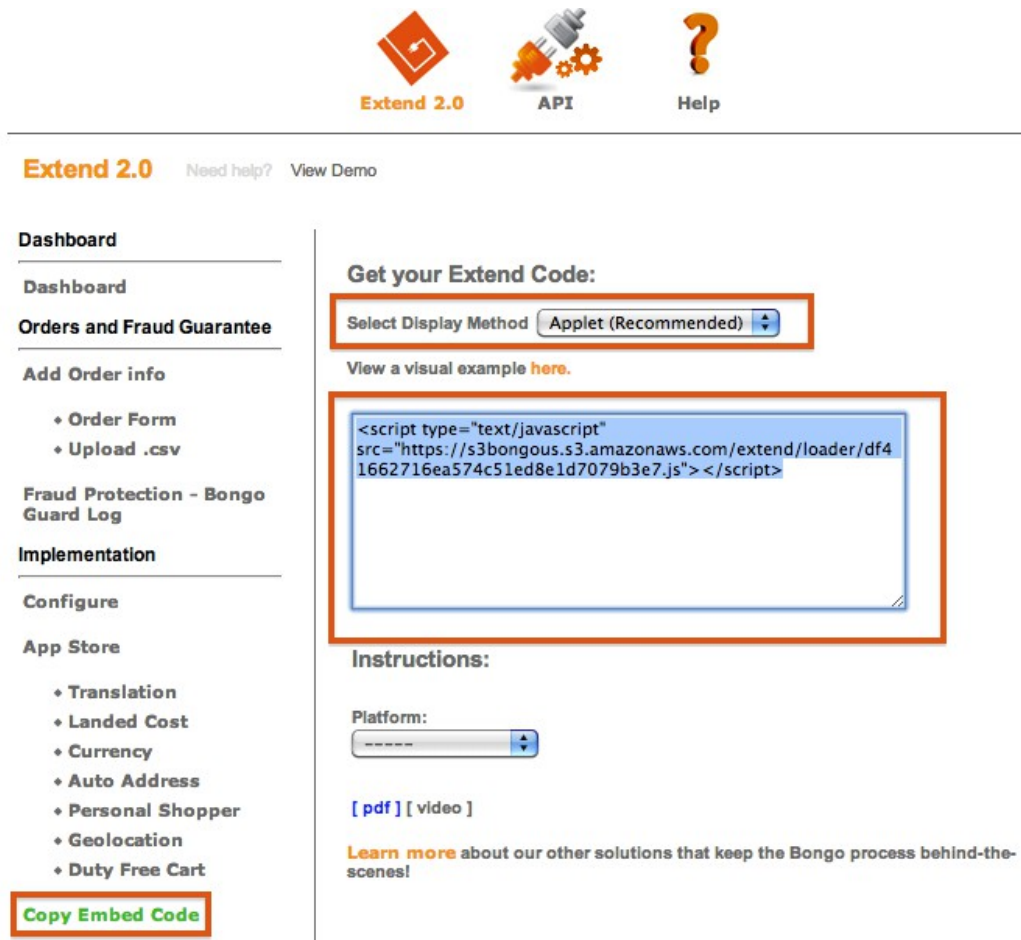

Implementing Extend on BigCommerce

STEP 1: Finding the Bongo Extend Coding

If you haven't been provided the necessary coding for Bongo Extend, you can access it by logging into your partner account at bongous.com/partner.

Click the **Extend 2.0** link, navigate under **Implementation** on the left and click on **Copy Embed Code**.

Make sure the display method is set to **Applet**. Copy the coding in the box below.

The screenshot shows the Bongo Extend 2.0 partner dashboard. At the top, there are three icons: 'Extend 2.0' (a diamond with an arrow), 'API' (gears), and 'Help' (a question mark). Below these is a navigation bar with 'Extend 2.0', 'Need help?', and 'View Demo'. The left sidebar contains a menu with categories: 'Dashboard', 'Orders and Fraud Guarantee', 'Add Order info', 'Fraud Protection - Bongo Guard Log', 'Implementation', 'Configure', and 'App Store'. Under 'Implementation', the 'Copy Embed Code' button is highlighted with a red box. The main content area is titled 'Get your Extend Code:' and features a 'Select Display Method' dropdown menu set to 'Applet (Recommended)', also highlighted with a red box. Below this is a link to 'View a visual example here.' A large text box contains the following JavaScript code, highlighted with a red box:

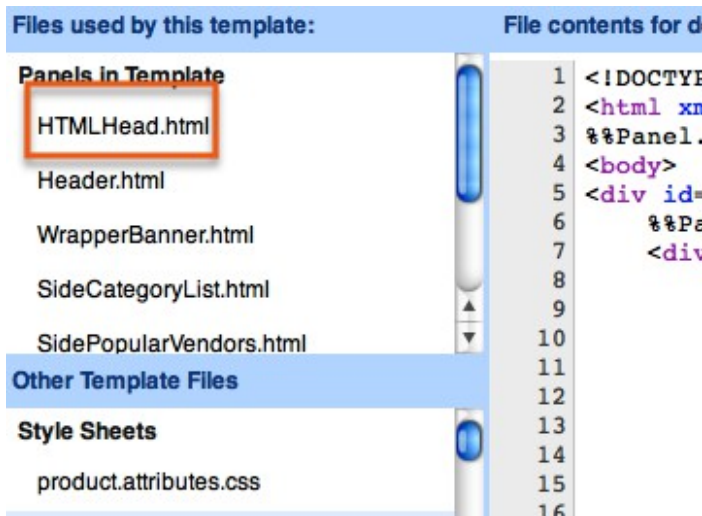

```
<script type="text/javascript" src="https://s3bongous.s3.amazonaws.com/extend/loader/df41662716ea574c51ed8e1d7079b3e7.js"></script>
```

 Underneath the code box is an 'Instructions:' section with a 'Platform:' dropdown menu, links for '[pdf]' and '[video]', and a link to 'Learn more about our other solutions that keep the Bongo process behind-the-scenes!'.

Implementing Extend on BigCommerce

STEP 2: Adding the Extend coding

1. Log-in to your BigCommerce account.
2. Click on the **Design** link.
3. Under your current store design, click the **Browse Template Files** button.
4. In the upper-left portion of the page, under **Panels in Template**, select **HTMLHead.html**.

5. Paste the Bongo Extend applet coding within the header tags and **Save**. The Bongo Extend applet will now show up on all pages of your website, including the cart and checkout.

```
var ThumbImageWidth = %%GLOBAL_ProductThumbImageWidth%%;
var ThumbImageHeight = %%GLOBAL_ProductThumbImageHeight%%;
//]]>
</script>
