

Bongo Extend Implementation

Implementing Extend

STEP 1: Finding the Bongo Extend Coding

If you haven't been provided the necessary coding for Bongo Extend, you can access it by logging into your partner account at bongous.com/partner.

Click the **Extend 2.0** link, navigate under **Implementation** on the left and click on **Copy Embed Code**.

Make sure the display method is set to **Applet**. Copy the coding in the box below.

Implementing Extend

STEP 2: Adding the Extend coding

If you are not using an e-commerce platform, there are a few places you can add the Bongo Extend Launcher coding. They are:

- Header
- Footer
- Separate page files
- Template file

The area you will need to add the coding to will depend on how your website is designed.
