

## Network Solutions Implementation

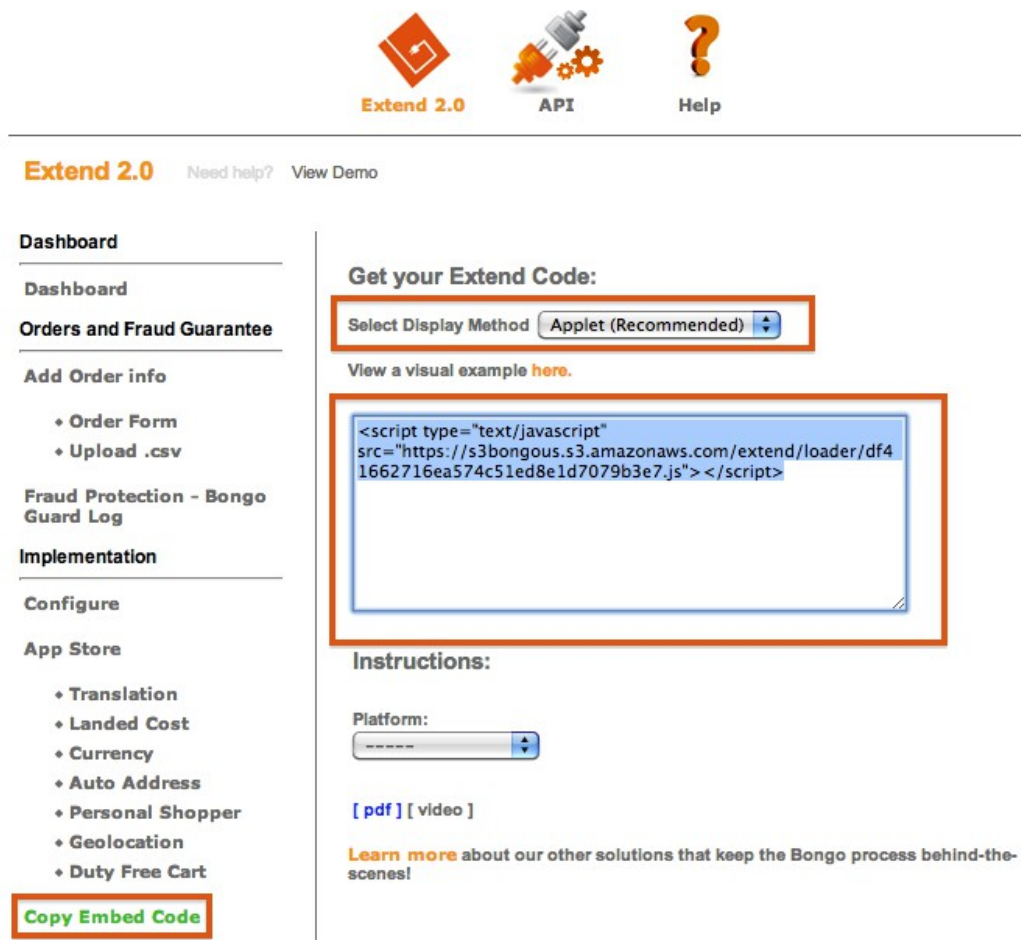

# Implementing Extend on Network Solutions

## STEP 1: Finding the Bongo Extend Coding

If you haven't been provided the necessary coding for Bongo Extend, you can access it by logging into your partner account at [bongous.com/partner](https://bongous.com/partner).

Click the **Extend 2.0** link, navigate under **Implementation** on the left and click on **Copy Embed Code**.

Make sure the display method is set to **Applet**. Copy the coding in the box below.

The screenshot shows the Bongo Extend 2.0 partner dashboard. At the top, there are three icons: 'Extend 2.0' (a diamond with an arrow), 'API' (gears), and 'Help' (a question mark). Below the icons, the 'Extend 2.0' section is active, with links for 'Need help?' and 'View Demo'. The left sidebar contains a navigation menu with categories: 'Dashboard', 'Orders and Fraud Guarantee', 'Add Order info' (with sub-items 'Order Form' and 'Upload .csv'), 'Fraud Protection - Bongo Guard Log', 'Implementation', 'Configure', and 'App Store' (with sub-items 'Translation', 'Landed Cost', 'Currency', 'Auto Address', 'Personal Shopper', 'Geolocation', and 'Duty Free Cart'). A 'Copy Embed Code' button is highlighted in a red box at the bottom of the sidebar. The main content area is titled 'Get your Extend Code:' and features a 'Select Display Method' dropdown menu set to 'Applet (Recommended)'. Below this is a link to 'View a visual example here.' A large text box contains the following JavaScript code: 

```
<script type="text/javascript" src="https://s3bongous.s3.amazonaws.com/extend/loader/df41662716ea574c51ed8e1d7079b3e7.js"></script>
```

 Below the code box, there are 'Instructions:' and a 'Platform:' dropdown menu. At the bottom, there are links for '[ pdf ]' and '[ video ]', and a link to 'Learn more about our other solutions that keep the Bongo process behind-the-scenes!'.

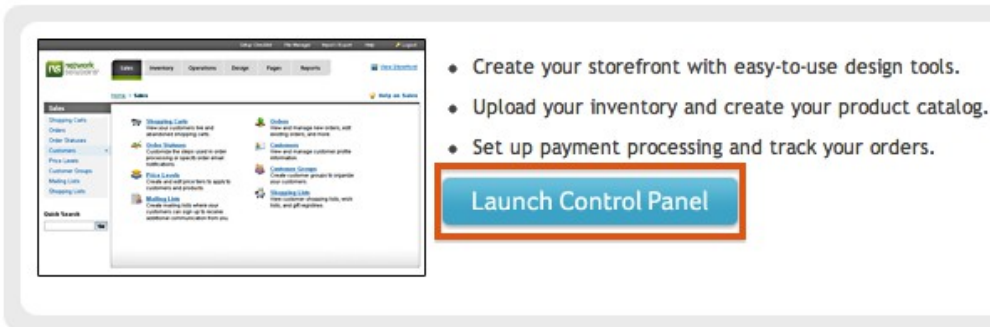

# Implementing Extend on Network Solutions

## STEP 2: Adding the Extend coding

1. Log-in to your Network Solutions account.
2. Click **My Ecommerce Package**.
3. Click the button that says **Launch Control Panel**.

Product Name	Action Required & Description
nsCommerceSpace Premium: 0354948.NETSOLSTORES.COM	 <a href="#">Assign Primary Domain</a> » read more ▾

## Launch Ecommerce Control Panel

- Create your storefront with easy-to-use design tools.
- Upload your inventory and create your product catalog.
- Set up payment processing and track your orders.

4. Click **Design** from the menu at the top of the page. Then, select **Site Design**.
5. Select **Header & Footer** from the Design Options.
6. Before adding the coding, make sure you are in HTML mode. You can enable this mode by clicking the “<>” button from the WYSIWYG editor tools. Then, paste the Bongo Extend Launcher coding after all the existing coding. The Bongo Extend applet will now show on every page of your store.
